## RADICAL MINERS SNOWED UNDER IN CONVENTION VOTE

Delegates Vote 1639 To 221  
To Affirm Action of  
Officials.

## INSURGENT FORCES CLAMOR FOR WORDS FROM LEADERS

Attempt to Make Speech Is  
Stopped By Presiding  
Officer.

Columbus, Jan. 7.—By the overwhelming vote of 1639 for, to 221 against the reconvened convention of the United Mine Workers of America today voted affirmation on the action of the international officers in accepting President Wilson's proposal to settle the coal strike.

According to Acting President Lewis and other international officers the affirmation carries with it an agreement to abide by the decision of the commission named by the president to arbitrate the differences between miners and operators.

The vote was taken after three days' debate on a motion presented by Philip Murray, president of the Pennsylvania miners' organization calling for endorsement of the course pursued by the international officers. Wide latitude was given all delegates to express their views.

Demand for a vote was immediately made by delegates after Acting President Lewis had made an appeal for approval of the international officers' action.

After the vote was taken, Frank Farrington, president of the Illinois miners sought to obtain recognition for the first time during the convention. He was reminded that he was out of order. Opponents of the proposed settlement plan called for Farrington's exclusion.

After the vote was taken, Farrington asked to answer questions. He was told he was out of order and retired to the rear of the hall.

An informal meeting of the scale committee will be held following adjournment, which is expected this afternoon, to discuss matters pertaining to presentation of the miners' demands to the president's commission in Washington next Monday.

John P. White, a member of the commission, was present when the vote was taken.

Like his associate, Secretary Treasurer Green, Acting President Lewis expressed confidence in the personnel of the president's commission and its final decision.

Though Lewis declared the action of the convention bound the miners to acceptance of the president's proposal and the award of the commission, it did not mean a final agreement with the operators on the wage scale.

Lewis said he was grateful that the miners had come through the struggle without the loss of a single life.

Public sentiment was such, he declared, that if your officers had been taken out and backed against a stone wall and shot, the public would have applauded.

The decision to order the men back to work was not made, Green said, until after the President had spoken in the conference at Washington between himself and Mr. Lewis with Attorney General Palmer and Secretary Tamm.

It was at this conference the President's proposal of a 14 per cent advance and the appointment of a commission to consider further increase was accepted, subject to the approval of the national executive board and scale committee.

We have the guarantee of the President of the United States that equal justice will be done through the commission," said Green. "And I have firm faith in this commission," he added.

Green expressed the hope that the commission would be able to grant the miners an increase in wages and a shorter work day without increasing the selling price of coal.

Dr. Garfield, former federal fuel administrator was severely criticized by Green.

## REYNOLDS TO PILOT COOLIDGE CAMPAIGN

James B. Reynolds.

James B. Reynolds, secretary of the Republican national committee since 1912, has resigned to take charge of the campaign of Gov. Calvin Coolidge of Massachusetts in his race for the Republican presidential nomination. Reynolds will open Coolidge's campaign headquarters in Washington.

## MEX. ARMY MAN KILLS AMERICAN

State Department Notified  
of Killing at Tuxpam of  
Employee of Oil Com-

Washington, Jan. 7.—Gabriel Porter an American citizen in the employ of Penn-Mex Oil company was shot and killed by a Mexican federal army officer at Tuxpam on December 21, according to advices received by the state department today from the American consul at Tampico.

The consul immediately was ordered to report further information and if the circumstances warranted to urge the local authorities in the Tampico district to arraign and punish the guilty persons. It makes a total of 20 Americans killed in the Tampico district by Mexican federal troops since April 7, 1917. Eighteen of them were employees of American oil companies.

Yesterday the consul at Tampico reported the murder of F. J. Roney and Earl Powers, oil men employed in the Tampico field. The state department immediately instructed the embassy at Mexico City to urge the Mexican government to take prompt steps to bring the guilty to justice and similar actions by the department in the case of Porter.

John P. White, a member of the commission, was present when the vote was taken.

Porter's home was in Fullerton, California.

## JACK READY TO MEET FRENCHMAN

Promoters Favor July 4 As  
Date and Agree on 15-  
Round Limit—Purse Will  
Be \$400,000.

Los Angeles, Calif., Jan. 7.—Jack Dempsey, heavyweight pugilist champion of the world, spoke this morning to learn from the public press that he and Georges Carpentier, of France would meet in the ring sometime soon at Tajana, Lower California.

At James D. Coffey, recently obtained an agreement from Dempsey's manager Jack Kearns for the champion to meet Carpentier at Tajana for a purse of \$400,000 and news cablegrams last night brought word that Carpentier's manager Descombes had agreed to the match.

The only stipulation was that he be not over 15 rounds and to this expressed no disagreement.

Kearns, Dempsey and Coffey said they favored July 4 as the fight date and all expressed satisfaction with Descombes' acceptance of Coffey's offer. They suggested on limiting the fight to 15 rounds.

"I feel that there should be a winner and loser's end of the purse, and \$200,000 to the winner and \$100,000 to the loser is fair. Descombes wants the purse split fifty-fifty, maintaining that Carpentier is as good a drawing card as Dempsey."

"That may be, but whether or not he is as good a fighter is the question. The French people are good sports. Now let Carpentier and Descombes take a sportsman's chance; but the splitting of the purse will not hold up the fight."

## CARPENTIER WILL ASK 50-50 PURSE DIVISION

Paris, Jan. 7.—Georges Carpentier and Jack Dempsey will probably meet in America for the championship of the world as a result of the acceptance last night by Descombes, manager for Carpentier, of an offer of a \$400,000 purse for the bout by James D. Coffey. Carpentier has already accepted Coffey's terms and all that remains to ensure the meeting of the two pugilists is the settlement of the number of rounds the men will fight and the division of the purse.

## WARRANT ISSUED FOR ARREST OF RED AMBASSADOR

Dept. of Justice Orders  
Martens Held For De-  
portation.

## TRACE RED ACTIVITIES TO AGENT OF SOVIET RUSSIA

Secretary Issues Statement  
Attacking Department  
of Justice.

Washington, Jan. 7.—A warrant for the arrest and deportation of Ludwig C. A. Martens, self styled ambassador of the Russian Soviet government has been ordered executed by the department of justice.

Martens, regarded by officials as the real leader of the Communist party in the United States, was said to be in Washington. His arrest was expected soon.

Determination of the government to take Martens into custody was definitely made after all evidence which had a bearing on activities of the Russian Soviet bureau in New York had been assembled by Assistant Attorney General Garvin. While officials would not disclose the nature of the evidence they said some of it promised to be sensational.

Martens came to Washington nearly a week ago from New York and with his secretary and other assistants has occupied a suite at a local hotel, less than three blocks from the department of justice. The signatures on the hotel register are those of S. Nuorteva who said he was Martens' secretary and who last night made public statement attacking the department of justice.

## GIRLS WIN FREEDOM FOR RADICAL MOTHER

Youngstown, Jan. 7.—Two little girls, aged three and six, won their mother's liberty from Uncle Sam's officers today when they clung to the skirts of the mother, Mrs. Stephen Petrich, as it came time for them to go to a detention home. Mrs. Petrich, who admitted she is a member of the Communist party, though she says she has not read its platform and manifesto, was released on her promise to return when wanted. Her husband is in jail under a presidential warrant.

## MEX FEDERALS SURROUND VILLA

Galveston, Texas, Jan. 7.—Francisco Villa is surrounded by Mexican federal troops in the desert of Hechicero between the states of Chihuahua and Coahuila and his capture is expected momentarily, according to a dispatch received here today by Mexican Consul Firro. Generals Murguia and Dieguez are in command of the pursuing columns.

## LICKING BANK ELECTS OFFICERS FOR NEW YEAR

At the annual meeting of the stock holders of the Licking County Bank and Trust company held Monday afternoon the following officers were elected: E. T. Rugg, Frank Yost, Wesley Montgomery, George B. Sprague, John H. Swisher, Frank W. Elliott, William H. Miles, A. M. Coad and C. L. V. Holtz.

The board organized and named the following officers: President, E. T. Rugg; vice president, Frank Yost; cashier and treasurer, C. L. V. Holtz; assistant cashier and treasurer, A. A. Haines; second assistant cashier and treasurer, J. J. Ditter.

## WORKMAN KILLED BY TONS OF CLAY

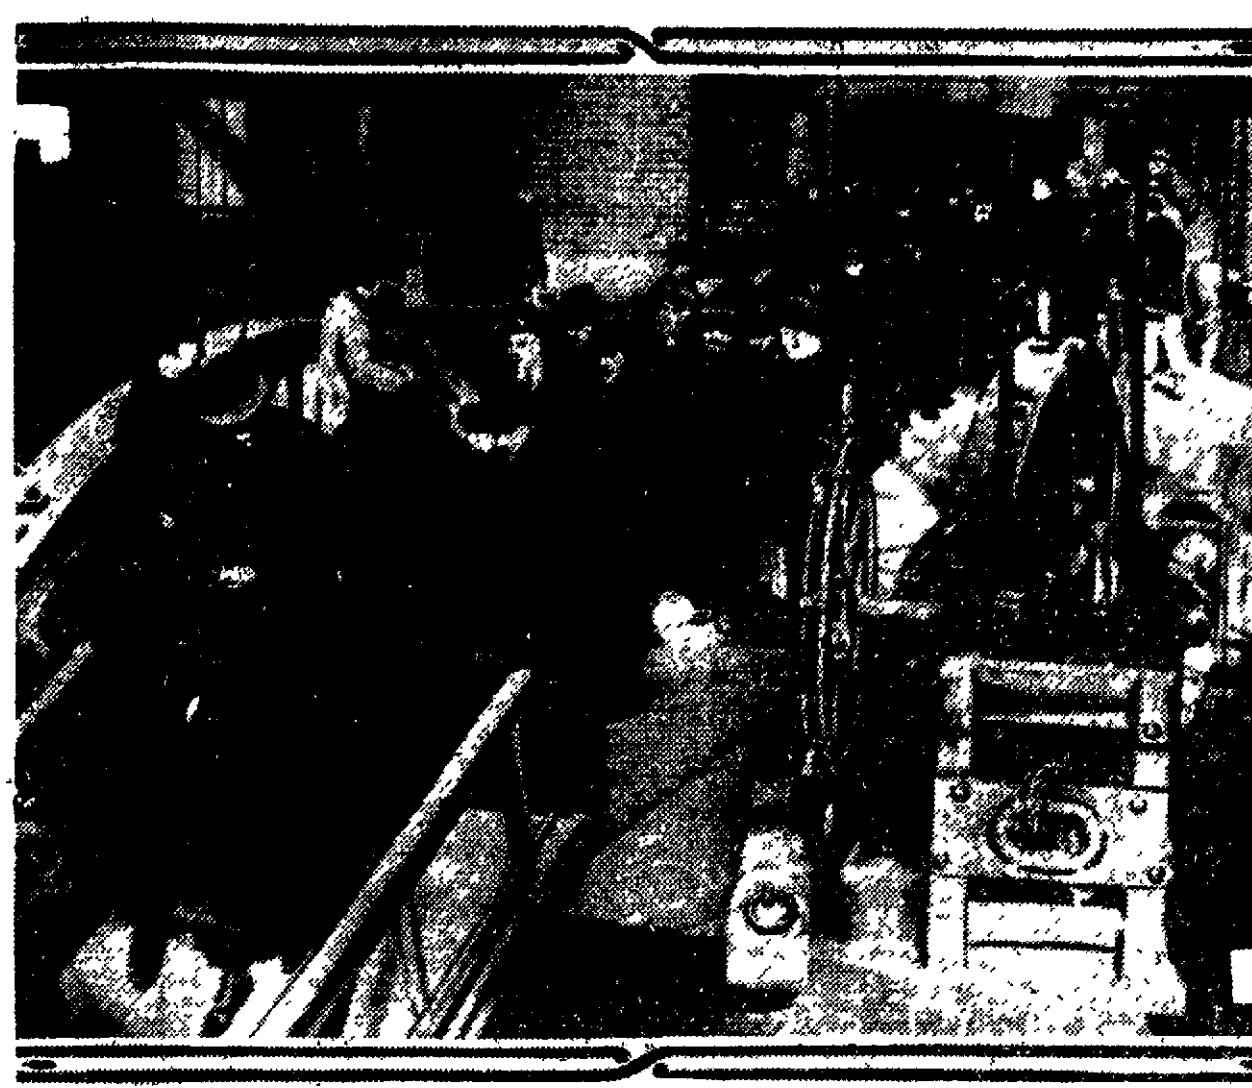

Andrew Rector Is Buried  
Under Mass of Falling  
Clay at Plant of American  
Bottle Company.

Andrew J. Rector, 52, an employee of the American Bottle company's plant, was instantly killed this morning about 3 o'clock. Rector, who was employed in the pot house where furnace pots are manufactured, was engaged in shoveling clay and several tons of clay in the pot house fell on him.

He was dead when taken from beneath the mass of clay and the left leg broken. Rector's ambulance removed the body to the Bradley establishment where it was prepared for burial and taken to the home, 275 North Eleventh street. Surviving are his wife, two daughters and three sons: Mrs. John W. Evans, of Cottage street, Miss Alice and Lawrence, of the home, and Lee Rector, of Fourth street, and Ernest, of Stanberry street.

Funeral arrangements have not been made.

## "REDS" ON THEIR WAY TO ELLIS ISLAND—AND DEPORTATION

Group of accused radicals leaving the Barge office at the Battery, New York, for Ellis Island.

The "Soviet Ark," which was the name given the transport Buford when it sailed recently for Russia with a cargo of anarchists and other radicals, will shortly be followed by a "Soviet Fleet," if one

may judge from the presence at Ellis Island of three transports, the America, President Grant and Fitzpatrick, held for "emergency service." Reds are being gathered in force at Ellis Island, arriving

from all parts of the U. S. where raids have been going on recently with the object of rounding up all dangerous members of the Communist party and the Communist Labor party in the United States.

## PHARIS TIRE AND RUBBER CO. STARTS TO BUILD NEW PLANT; FINE PROGRESS IN STOCK SALE

Ground has been broken for a new three story factory building between the Racoon creek bridge and Eleventh street for the Pharis Tire and Rubber Company of this city. The structure is to occupy ground space of 100 by 120 feet. It is being built by the State construction company which is buying all of the materials entering the construction from Newark dealers. Secretary Lindrooth of the Pharis Tire and Rubber company says that the building is to be finished by April 1st.

In addition to this new factory building a power plant 60x70 feet will be built with capacity sufficient to supply two additional factory units of the size now building.

At a conference held at the Chamber of Commerce yesterday afternoon reports from the banks and sales organization were received, showing splendid progress. It is no small task to float an issue of a quarter of a million dollars' worth of stock in a limited district

in a short time but the sales made to date indicate clearly that this community will soon absorb the entire issue. This \$250,000 stock issue has the endorsement of all of the Newark banks and the leading business men of this city. The stock is being taken by the conservative people of the community who regard it as a first class investment, one that provides unusual return and security of principal.

The company has two men, E. D. Reese and H. M. Sayre, who are presenting this stock proposition to those who are interested. They are devoting a large part of their time to calling upon people who send in coupons clipped from the advertising or who telephone to the company's office. Without obligation of any kind Mr. Sayre or Mr. Reese will call and explain the Pharis proposition in detail. If the reader is interested in this stock issue, tax free and 8% net, pronounced by Newark bankers to be the best investment in the city, a telephone message to the company's office will bring full information.

## OFFICIALS WOULD MAKE HALLADAY FACTORY PURELY NEWARK INDUSTRY

President Huth Arrives With New Car From Attica  
Plant—Will Seek to Employ Newark Men Now Work-  
ing in Other Automobile Factories.

T. E. Huth, president of the Halladay Motor corporation arrived in the city last evening, driving a Halladay car from Attica. The car was placed on display in the Arcade at noon today.

Mr. Huth in describing the car stated that it had always been the policy of the Halladay corporation to build a car of the highest grade, advance lines, for business as well as a luxurious passenger purpose, at a minimum price. The car sells for \$195.

The Halladay company uses the famous Rutenburg six cylinder engine, light speed, high compression and flexible motor. Front Lexan wheels, Borg-Bloch clutch, floating axle, Westinghouse starter and generator; Atwater-Kent ignition system; Stewart vacuum; Stromberg carburetor; a special hot air stove to keep low grade gasoline's own make of body, square corners with a two inch ledge. It is upholstered in genuine Spanish leather, filled with an A grade of curled hair. It is fully equipped with modern instruments.

"Following the present need for similar companies in starting an industry in a new town," Huth says, "we are selling a block of our common stock. We believe in selling some of the stock here that the people of Newark will not only be more interested in our company, but will cooperate with us in all our projects."

"Seven stockmen were out yesterday and they were enthusiastic over the reception accorded them and our company. We found that not only were the business men willing and eager to purchase the stock, but also the people in all walks of life. We have instructed our salesmen to take the names of all residents of Newark who wish to become stockholders in our company. We find that a number of Newark boys are working in automobile factories. Naturally we feel that we will be doing the city a real service if we can bring these boys back to their parents' and their own."

"It is our desire to make this a purely Newark industry. I wish to thank the Newark Chamber of Commerce and all other institutions and individuals who have agreed to assist us in our cooperation. I know that their interest will be rewarded."

The company's stock is selling at ten cents a share. The factors are completed. This is an outstanding dollar and cent stock. It is being sold into Newark at approximately six

million dollars a year. Ground will be broken on the site in East Newark the latter part of this month and the buildings, 60x80, in two four hundred foot lengths, will be completed in 45 working days after the start.

## DODGES DRAFT TWO YEARS; IS ARRESTED

Philadelphia, Jan. 7.—Grover Bergdoll, one of the two brothers accused of draft dodging, and who have been sought by the police for the last two years, was arrested in his mother's home here today.

Detectives broke into the house by the front and rear entrances. While one of the men wrested a revolver from Mrs. Bergdoll, mother of the two draft dodgers, the others went through the house and found Grover wrapped in a blanket, hiding in a box seat. He was without coat, vest or collar. The prisoner was taken to the federal building in a motor car.

## MEXICAN QUAKE TAKES TOLL OF 1000 DEAD

Mexico, City, Jan. 7.—Counatan was destroyed by Saturday's earthquake with 2,000 casualties, including more than 1000 dead, according to official reports given out here last night.

The entire garrison at Tebeles was killed or injured. Virtually all the roads in the surrounding district were flooded or destroyed. Three hundred dead are reported at Barranca Grande, near Counatan.

NATIONAL BANK CALL.  
Washington, Jan. 7.—The comptroller of the currency today issued a call for the condition of all national banks at the close of business on Wednesday, December 31.

STATE BANK CALL.  
Columbus, Jan. 7.—A call for the condition of all state banks at the close of business Wednesday, December 31, was signed today by the state department of banks and banking.

## LEADS FIGHT TO INCREASE PAY OF FEDERAL WORKERS

Luther C. Steward.

Luther C. Steward is president of the national federation of federal employees, an organization which has been making a determined drive for salary increases and more equitable promotions for government workers.

The federation has 154 local unions of workers distributed over the country.

## CORONER REFUSES TO VIEW BODY

Declares County Commissioners Turn Down Bill For Similar Services in Past — Prosecutor Will Be Asked to Act.

When Funeral Director Lester Bradley called upon Coroner S. S. Richards to view the body of Andrew Rector, killed at the American Bottle plant that official refused to act, giving as his reason that the county commissioners had not allowed the bills in previous cases where he had been called upon under similar circumstances.

Director Bradley then called upon the county commissioners and was informed that the officials would take the matter of the coroner's refusal to act when called upon before Prosecuting Attorney Charles L. Flory. The commissioners stated that a county official must perform the functions of his office after he had been inducted into same, or else resign, and upon refusal to serve is subject to a severe penalty, the maximum being \$500.

Members of the county board of commissioners stated that Dr. Richards presented a bill to them for viewing 22 bodies, the commissioners allowing pay for 14 cases. The commissioners claim that the other cases were those of persons dying from natural causes and that it was not necessary for the coroner to act.

In the meantime official action is delayed in the case of the accident to Rector. Should Richards resign Sheriff E. A. Bryan would act in his stead until a new coroner would be named by the county commissioners.

GAS RATE INCREASE APPROVED.  
Findlay, Jan. 7.—With only one dissenting vote, city council yesterday approved the schedule of increased rates filed by the Logan Natural Gas and Fuel company. The new rates range from 48 to 62 cents, depending upon the amount of gas consumed. The old rate was 35 cents.

## GAS EXPLOSION WRECKS HOUSE; WOMEN UNHURT

Blast Tears Away Front  
and Side of Hebron  
Home.

## PLUMBER'S MATCH IGNITES FUMES FILLING CELLAR

Windows of Buildings  
Across Street Are Shat-  
tered by Blast.

A gas explosion at 9:30 o'clock this morning wrecked the home of Gordon Gockenback in Hebron. The loss is estimated at \$2,000 and adjoining buildings had windows shattered by the force of the explosion.

A leak in the gas pipes had filled the cellar with fumes. George Perry, a plumber, was called and in examining the meter, which was on the outside of the house, he struck a match. The explosion was nearly instantaneous with the striking of the match. The front and one side of the house was blown out. Mrs. Conrad Gockenback and Mrs. Arthur Gockenback were in the house at the time, but neither of them was injured. Mrs. Arthur Gockenback being at the telephone at the time of the explosion.

The windows were blown out of the postoffice and the hardware store of E. C. White by the explosion. The Gockenback home is located between the two hotels and the plumber was blown back and side of one of the buildings but aside from the shock was not injured. The windows in both the hotel buildings were damaged. There was no damage to the Gockenback home by fire.

## WANTS DEADLOCK ON PACT BROKEN

Senator Underwood De-  
clares That Bi-Partisan  
Committee Will Be Called  
For If Action Is Not  
Taken.

Washington, Jan. 7.—Senator Underwood, Democrat, Alabama, gave notice in the senate today that and the deadlock over the treaty of 1796, he would press his resolution calling for the appointment of a bi-partisan committee of the senate to work out some agreement.

He explained that he had not called up his resolution, which was introduced just before the senate adjourned over the holidays, because he did not desire to "throw a monkey wrench" into efforts now being made to reach an agreement.

"But I don't want it to be understood that I have abandoned the resolution," he said, "if there is no solution reached within the next few days I will endeavor to call it up and get a vote on it."

Meanwhile informal conferences among Republican and Democratic senators on compromise propositions continued, but without apparent results.

A telegram from Major Thompson of Chicago, protesting against ratification of the treaty and urging that the people be given an opportunity to express an opinion on it was placed in the congressional records today by Senator Walsh, Democrat of Montana. Copies of the telegram were understood to have been received by Vice President Marshall and many senators.

## WILL ASK DEMOCRATS TO ENDORSE LEAGUE

Washington, Jan. 7.—A resolution endorsing the League of Nations and the peace treaty and commending his efforts to establish a League of Peace is to be laid before the Democratic National committee at its meeting here tomorrow with the backing of the committee of officers.

"If I have anything to do with it," said Chairman Cummins today, after conversing with various party leaders, "the resolution will be so clear as to leave no doubt about our position. We are behind the President."

PITCHER MITCHELL SOLD.  
Cincinnati, Jan. 7.—Pitcher Roy Mitchell was today sold by the Cincinnati Nationals to the Sacramento club of the Pacific Coast League, the purchase price was not disclosed.

London.—Dolshchik captured sniper of Marupel in government of Saboroslav.

Newport—Grand American handicap trap shooting tournament of 1920 awarded to Cleveland.

Boston.—Heine Wagner, former shortstop with the Red Sox will not be with the team next season, according to announcement by Frances.

Berlin.—According to copy of Russian newspaper received here Admiral Fakhitsch who fought against German fleet in 1917 has been executed.

Reno, Nevada.—Helen Draper Taft, daughter of former Governor Dragoon of Massachusetts granted divorce from Wallace Smith Taft, nephew of former President Taft.

Chicago.—Clarence F. Parker, 61, former vice president Illinois Central railroad dead.

BY FRANK A. BOLTON, her attorney.  
12-31-Wed-61

Your coffee, dear, is fine and clear.  
My gratitude you're won;  
And right away, this very day,  
I'll get some Golden Sun.

**FIRST WEEK, 5 EGGS;  
SECOND, 7; THIRD, 104**

Hens Showed Steady Egg Gain for Mrs. Pierce in Winter Weather.

"The week before we tried Don Sung, we got 5 eggs, from 50 hens. The next week, from a 50-cent package of Don Sung, we got 72 eggs, and the next week 104. Some of our hens are mere pullets and Don Sung has started them laying."—Mrs. B. F. Pierce, R. F. D. 1, Butler, Penn.

Mrs. Pierce selected a severe time for her test—the middle of January. Yet she started getting the eggs promptly. Your hens can lay well in cold weather, and will prove it. Here's our offer: Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying. Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail to Dr. J. H. Russell, Druggist Co., 284 Columbia Bldg., Indianapolis, Ind.

**NEGLECTED COLDS ARE DANGEROUS!**

**Dr. King's New Discovery soon breaks a cold and checks a cough**

**CHILLS**—fever—sneezes—and then a hard cold develops. Take a little Dr. King's New Discovery when the sniffles start. It will soon check the cold, the cough, the throat-tickle. Used everywhere by people who know why it has been on the market for half a century. Relieves cold, cough, grippe, croup. No disagreeable after-effects. All druggists—50c and \$1.00 a bottle. Give it a trial.

**Bowels Behind Schedule?**

Liver acting lazy? Bring them to time with Dr. King's New Life Pills. Gentle but sure-acting system cleansers that are ticklers in action and pleasing in results. Still 25c a bottle at all drug stores.

**NO SPOONING IN AIRPLANES**

Sheer impossibility of Sociability While Flying May Constitute Bar to Popularity.

The most fatal thing of all at the present time to the popularity of flying is its unsociability. The pilot may have the profile of a Greek god, but if every time he turns it to speak it is necessary to shut off the engine, and one's heart stops, too, it is difficult to make a witty response. And mostly he does not turn it. All one has for company is the upper two-thirds of the back of a leather helmet. As a matchmaking proposition the airplane is a failure. And as for descending to some flowery meadow and there saying all the things he has been thinking up while in the air, I can only say personally that after two hours of flying, I was stone deaf, and I wouldn't have known whether he was telling me he adored me or was asking me if I wanted a drink of water.

I was quite deaf for some time. We landed at an army aviation field before a lot of ground mechanics and flyers, and if I expected that the removal of my goggles and discovery of my sex was going to make any sensation I was disappointed. D'you think they ran up and shook me by the hand and observed that I was a brave woman?

They did not. A man in overalls came up and I gathered by lip reading and his gestures that we weren't wanted where we were, and to move on down the field and park somewhere else. No newspaper men, no excitement, no cameras. Was this thing to be lost to the world?—Mary Roberts Rinehart, in Saturday Evening Post.

**IS AIRMEN'S PATRON SAINT**

Michael, With His Wings and Spear, Is Peculiarly Qualified for That High Position.

It was the wing of St. Michael, chief of the archangels and head of the celestial militia, which Jeanne d'Arc heard, they say, whispering about her in the little garden of Domremy when she had her softly spoken but insistent call to arms. And now, as if it were not enough to be the one who called Jeanne d'Arc from Domremy to Rouen, St. Michael is also the patron saint of aviators, because he heads celestial warriors and battles in the air.

In a London church on Spanish place—the church to which King Alfonso went when he was there—there is a new stained window with an airplane mosaicked into its design, and that window is dedicated to St. Michael, patron saint of airmen.

St. George met his dragon on the earth, but St. Michael battled with the devil and his angels in the celestial spaces and threw them out of heaven. With his wings and his spear he was the great prototype of the armored airplane, and it may be that even the inspiring Jeanne d'Arc did not satisfy him and that he has always kept in his mind this time when men should fly and fight as he did.—New York Evening Post.

**Horse Adapts Itself to Change.**

The horse, which as Thomas Winans predicts, will be extinct ten years hence, has shown a remarkable knack of adapting itself to changing geological periods. The animal has increased in height, while others have shrunk and disappeared; but the fossil remains of horses, only a few inches high, which roamed our planet at least two million years ago, are almost perfect models of the existing type. The most marked change has been in its feet. Beginning with five toes to each foot, the horse met changing conditions by occasionally shedding a toe, and is now the only one-toed mammal known to naturalists. That and the progressive increase in its size have been the only evolutionary processes which the horse found necessary so as to keep its place in the sun. As a worker, weight for weight, it beats the elephant hollow.—Exchange.

**Languages of Belgium.**

Belgium has two chief languages: Flemish in East Flanders and West Flanders, Antwerp, Limburg and Brabant provinces, or the north and east; French in the province of Liege, Namur and Hainaut and in Luxembourg. The French-speaking Belgians claim to descend from the Belgae, being called Walloons. In 1910, of the 7,423,784 people of Belgium, 3,220,662 spoke only Flemish, 2,853,584 spoke only French, 81,278 spoke both Flemish and French, 31,415 spoke German, 74,968 spoke French and German, 8,052 spoke Flemish and German, 52,547 spoke all three languages.

**She Should Worry.**

"Della," said Mrs. Barrows sternly, "I met that policeman today who sat in the kitchen with you so long last night. I took advantage of the opportunity to speak to him."

"Oh, go on now," replied Della, with a smile. "Ye needn't think that'll make me wan bit jealous, mum. Oh, I have got him safe enough."—New York Globe.

**Thought Snake Was Round.**

Little John, who had often been told to be sure of a statement before he made it, was visiting his grandparents on the farm. One day he rushed into the house exclaiming: "I saw a snake out there, grandpa."

"What kind of snake was it?" asked grandpa.

"I am not right sure," said little John, "but I think it was a round one."

Let mules do the kicking.

"Diamond Dyes" Turned Faded, Shabby Apparel into New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings. The Diamond Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

**The Heimerdinger Safety Razor Blade Sharpener Leads Them All**

A. P. Teuscher Makes Strong Claims for This New Machine Which He Has Installed.

I wish to announce to the public that the Heimerdinger Model B Honing and Stropping Machine for Safety Razor Blades is giving entire satisfaction. From some who are supplying their makes of machines and some who are not familiar with the high quality of work this machine turns out I have heard unfavorable comment. The Heimerdinger Automatic Machine, which I have installed, was selected only after months of research in the markets for a machine that would meet all the requirements necessary for turning out satisfactory work. I selected this make of machine because it appeared to me as the best I had ever seen and because it is so highly recommended by men who have used it, and by a large number of the most experienced cutlery men in the country. Since installing this machine in my barber shop, 26 West Main street, I have turned out many, many orders and every one has proved to be most satisfactory. The Heimerdinger Automatic Sharpener is the very best to be found on the market today and is the only machine of its kind that can put a keener edge on a razor blade than the old way of sharpening and honing by hand. Barbers all over the country are installing safety razor blade sharpeners for the convenience of their patrons who do a portion of their shaving by the safety razor method, and with few exceptions they are choosing this make of machine because it does the work as near perfect as work can be done.

I have a number of letters on file in my barber shop from men who are using this machine and from experienced cutlery men who recommend this machine as the best that can be bought. These letters can be read by any one who desires to see them. This is certainly sufficient evidence to convince these in doubt that this machine will do all and more than I claim for it. All I ask is that you bring me a few of your safety razor blades, (no matter what make) and let me demonstrate to you that I can put them in better condition than they were when purchased new. I make this claim because oftentimes new blades are dented in transit and usually each package contains a few blades that have been rendered unfit for immediate use on account of the rough handling in shipping.

The Heimerdinger Machine hones and sharpens at the same time, works automatic and develops a nice smooth keen edge that means satisfaction to the user.

Any individual knows that a barber, through his experience in using and sharpening the straight blade razor will undoubtedly sharpen the safety razor blades better than others who are in the business with little or no previous knowledge of the work. Bring in your safety blades and have them sharpened the satisfactory way by the latest and best sharpening machine to be found not only in Newark but everywhere. I give you prompt service.

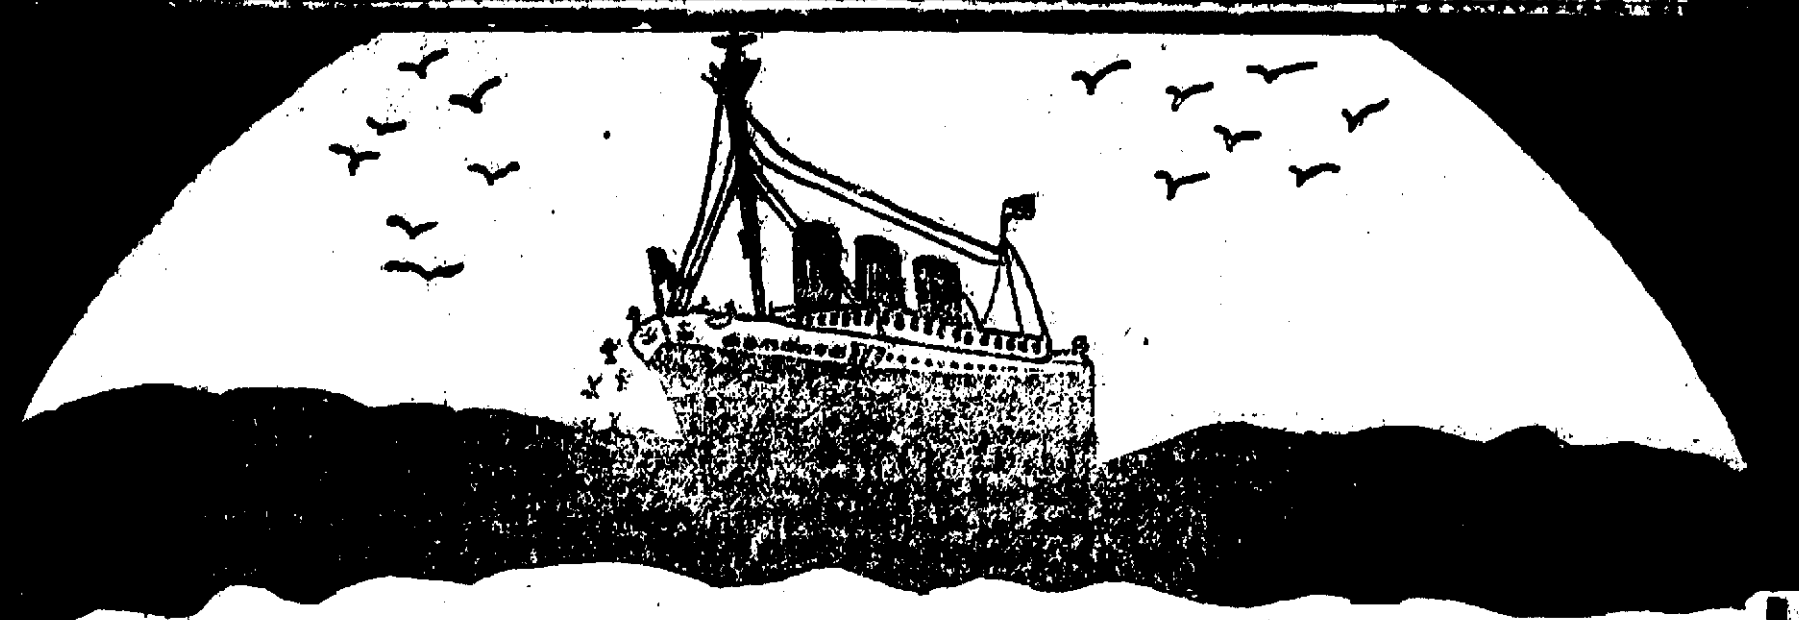

A. P. TEUSCHER, 17-11 26 West Main street.

**JUVENILE OFFICERS HANDLE 114 CASES**

Probation Officers John Dwyer and Mary M. Miller have submitted the following report of the activities of the juvenile court and its officers for the year ending December 31, 1915, to Juvenile Judge Robbins Hunter, which shows that there have been 114 cases against minors, involving the welfare of 191 children classified as follows:

Boys brought in on petition.....	121
Girls brought in on petition.....	70
Boys delinquent.....	94
Girls delinquent.....	23
Boys dependent.....	27
Girls dependent.....	42
Committed Boys' industrial school.....	4
Committed Girls' industrial school.....	2
Committed House of Good Shepherd.....	2
Committed Board State Charities.....	1
Committed Board of Administration.....	1
Committed Mansfield Reformatory.....	1
Committed County Infirmary.....	1
Committed Children's Home.....	25

Robust Children

**DOOMED**

Yes friends it's true. At last we have cornered HIGH PRICES and like rats in a sinking ship they are going down. Several reasons led toward the downfall in which you are going to gain by coming to our tremendous price crushing

**SALE**

**D**UE to industrial disturbances and an unexpected late winter many garment manufacturers were left with a surplus stock which they were willing to let go for low figures. We were fortunate to buy a big portion of this stock as this gives us the opportunity to co-operate with the government's request to smash high prices. We offer them at a sacrifice to you.

**Money Saving Values You Can't Beat**

Although the dollar doesn't go far these days it goes a long way here—It still has the same value with us as of old. After the holidays with your purses pretty empty this sale comes in quite handy for the average wage earner.

**A CHARGE ACCOUNT**

Does the trick and helps keep you well dressed and contented.

**A PROOF OF OUR GREAT VALUE OVERCOATS \$13.95**

**INCOME TAX RETURNS.**  
There has been no sufficient system for requiring people liable to income tax to make returns. A man of large wealth of course could not safely neglect to report the same. The internal revenue men should compare the lists of returns in their districts, with the lists of those paying local taxes. A man that paid a good sized tax to his home town, yet neglected to make any income tax return, would probably get into trouble.

He should also have made effort all through his district to obtain lists of those supposed to enjoy good incomes, and should have compared his lists with those who handed in statements. But how far the law has been enforced in these respects is a matter of guess work. It might be very well lived up to in one locality, and very loosely enforced in others nearby, according to the type of man in charge. It would still be possible for many people of secretive habits to have good incomes without making returns. Many have always made it their policy to handle money affairs in the quietest possible manner, with the idea of avoiding taxation. The chances are that many of these have been liable to the income tax, but have never made any return.

It has been announced that a list of local income tax payers for 1918 is to be posted in every post office. The amount paid will not be stated. This should be a means for smoking out the dodgers. These lists should be carefully examined by the public. Those not found there who are known to have incomes rendering them liable, should be handed to the proper authorities for investigation. The mere publication of these lists will lead people to make their reports. If a return can be secured from every one who should make it, not merely will the revenue of the government be increased, but it will give people confidence in the administration of law and justice.

**WALKING THE BEST EXERCISE.**  
The world does not usually go to pugilists for wisdom. But Georges Carpentier, heavyweight champion of Europe, handed out some sage advice when he commended walking as the fundamental exercise in athletic development. He did not mean the dreary droning along the streets of the tired man who feels he must grind out a certain number of miles to keep in trim. He placed emphasis on good physical carriage, as some thing that develops not merely the body but the mental outlook. When a man learns to hold up

his head and breathe deep, he has saved many chances of break down. In these days many people, instead of fretting at increased street car fares have rediscovered that they have legs that would easily take them a mile or two to their work. Result, more energy and more money. While many people have been made helpless by the ownership of automobiles, the great walking masses still keep up a habit that lies at the basis of health and strength. It can become still more so, if they form the habit of good posture.

The railroad trains that used to run over crows, that didn't know enough to get off the tracks, are now running over automobile parties. About the same degree of intelligence displayed in both cases. Barber shops say there is nothing new in the Community Center idea. They have been providing this feature of modern enlightenment and intellectual exchange for many years. People who are selling the wood alcohol whiskey should be required to demonstrate the virtues of the concoction by drinking it themselves. Raw materials are scarce, but raw prices aren't.

**"A CABINET OF CHANGES."**  
A cabinet of changes sneers our young friend Harvey's Weekly apropos of the prospective retirement of Franklin K. Lane, and "there is still time for several more changes." How different things were ordered in those dear Roosevelt days! Wilson has had two Secretaries of State and Roosevelt had only three, comments the New York World in a recent editorial. Wilson has had one Secretary of the Navy and Roosevelt had only six. Wilson has had one Secretary of the Interior and Roosevelt had only two. Wilson has had two Secretaries of War and Roosevelt had only three. Wilson has had one Postmaster General and Roosevelt had only five. Wilson has had as many Attorney Generals as Roosevelt, and two Secretaries of the Treasury to Roosevelt three. During the Roosevelt administration there were nine departments of Government and twenty-nine more or less distinguished statesmen wandered in and out of the cabinet, and only one of them managed to survive both of the Roosevelt Administrations. But it is the Wilson Cabinet, of course, that is a cabinet of changes.

**Did You Know**  
That coinage originated in Asia Minor? There are very few specimens of the first coins in existence, though some are in the British Museum. The first coins were made of electrum, a mixture of gold and silver which was found in natural form in the mountains of Lydia. There were no inscriptions on these coins, but they often bore emblems of religious worship and also of trade. The coin of Cyzicus, on the Marmora, which is well known, bears the figure of a fish with a sacrificial fillet. These early coins were irregular in shape, some round and some oblong, and all of them much thicker than those of a later period.

**Which is Which?**

**SYNOPSIS OF PREVIOUS INSTALLMENTS.**  
Keitha, a young business woman, was maid of honor at the wedding of a chum who married a lieutenant shortly before he sailed for France. The chum remarked that she, Keitha, would probably meet her fate as several young officers were to be at the wedding. Lieutenant Lester Bennett, the best man, meets Keitha and the same night tells her he loves her and asks her to marry him. After a whirlwind courtship of two weeks they are married and leave for a short honeymoon and Lieutenant Bennett sails with his company for France in a few days. Upon receiving a cablegram from her husband that he would arrive on the Leviathan, Keitha, with her maid, hurried to New York and establishes herself in the same hotel in which they spent their honeymoon. Keitha suddenly realized that she is married to a man whose name she does not know. He has returned as Captain Bennett she knows that he feels the same about her. At a dinner party brother officers hint of a flirtation of Bennett's in Paris. Keitha becomes suspicious and flirts desperately with Captain Moore, an old friend of her father's who is engaged in college. Bennett becomes jealous. The coldness between them has not been overcome and on their return home Keitha insists upon returning to her place in the business world. One evening Bennett phoned her and asked her to come home and keep him down town for dinner and Keitha accepts an invitation to dine at a fashionable restaurant with Mr. and Mrs. Fairchild and a party. She sees her husband at another table with Madge Fairchild, one of their own friends, and Bennett comes across to their table and speaks of having his engagement with Madge's father also and that he had not arrived. Keitha very sweetly invites them to join their party. The next morning Bennett tells her when she wakes up that the night before and Keitha tells him that Mr. Fairchild is due to arrive home from a stay in New York and he can probably lunch with him that day. Bennett, on his way to the office, resolves to pay her back for her keen way of telling him that she knows he is deceiving her. A few weeks later Bennett is sent west on business and decides to visit his family in California. Keitha accompanies him. On the trip west they meet Madge, a friend of Keitha's, who is wearing heavy mourning for her husband, Capt. Tasker Holmes, whom she thinks was killed in the late war. On the train also is Capt. Sinclair, of the A. E. F., and he and Mrs. Holmes become interested in each other. Sinclair confided to Keitha that he has reasons for thinking Madge's husband is very much alive and the biggest scandal sent across with the A. E. F. On Bennett's arrival in San Francisco Lester's sister, who happens to be visiting a chum in the city, comes to the hotel to welcome Keitha into the family and asks her if she has succeeded in taming Lee, for his father had cut off his allowance and sent him east to his uncle for getting into a terrible scrape in the west.

**Abe Martin**  
"I'm sending a couple of days with Betty Arnold," said Anita when the trio had returned to the Bennett's suite. "She's just as crazy about you as ever and told me to ask you both to dine and go to the play with us tomorrow night. Mrs. Arnold will call you in the morning and give you a formal invitation."  
"Oh but I can't possibly go," protested Keitha involuntarily. "Our trunks were checked direct to Los Angeles and I have only street clothes in my baggage."  
"That's all right. Anita will take you prepared to one of our little French shops tomorrow and you can get a couple of new ones," said he easily. "I'd like to see you in something of Anita's selection, anyway. I'm rather tired of these innocuous little frocks you affect."  
Keitha bit her lip. She was hurt by his suggestion at the same time she realized that it was only paying the same which he had held against her since morning. But she particularly did not want to do with her sister-in-law whose extravagant taste was only too apparent.  
"It wouldn't be possible to get anything attractive at such short notice, unless it was ready-made and I particularly dislike that type of gown," she protested.  
"All right," said Anita, "I'm going to a high school where I'll find a pleasant look."

**ASPIRIN—A Talk**  
Take Aspirin only as told by "Bayer"  
The name "Bayer" identifies the true, world-famous Aspirin prescribed by physicians for over eighteen years. The name "Bayer" means genuine Aspirin proved safe by millions of people. In each unbroken package of "Bayer Tablets of Aspirin" you are told how to safely take this genuine Aspirin for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis and for Pain. Always say "Bayer" when buying Aspirin. Then look for the safety "Bayer Cross" on the package and on the tablets. Handy tin boxes of twelve tablets cost but a few cents. Drug-gists also sell larger packages. Aspirin is trade mark of Bayer Manufacturing Monocetate of Salicylic Acid

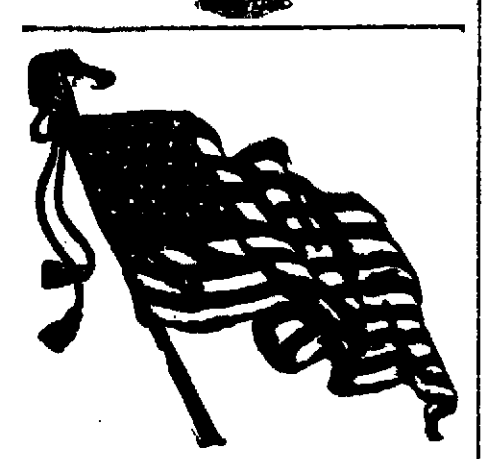

**RAYOLIGHT OIL**  
Saves Eye Strain  
Keep your lamps filled with Rayolight Oil and read, sew, knit or do any evening work with less eye strain. Rayolight is finest kerosene oil—clean and reliable. **GOOD CITIZENSHIP.**

The American people never realized until the war, what tremendous assets of patriotism and loyalty it possesses. Four million men quietly responded to the call of the government, gave up their work and business interests, risked their lives as their duty to their country. Most of those who stayed at home gave loyal support and made many sacrifices. Now all this patriotism and loyalty comes up against a new test and it finds a new duty to perform. The American people have accomplished marvels in business development, and scientific and technical achievement. But in conducting their public affairs, they have been less successful. The local, state and national governments are for the most part inefficient and costly for the amount of work done. The principal cause for this partial failure, has been civic neglect on the part of the people. What is everybody's business is nobody's business. It is common to blame the politicians for failures of government. But politicians reflect the opinions and desires of their constituents. When the people demand efficient, business like, progressive government and insist upon it, and refuse to be diverted by side issues, they always get it. The American people ought in this presidential year, to have a new birth of good citizenship. The country that the boys died for over in France, is worth some effort here at home. People can not expect to get efficient government, state, local and national, unless they put more personal effort and thought into it. Every person should feel that he has a personal stake in elections and other political events of this fateful year. The entire concentrated thought of the nation should be given to the cause of good government.

**"CAN YOU READ AND WRITE?"**

The above is one of the most important questions the census taker must ask. There is much to make one think that illiteracy has increased since the last census was taken, when something over 10 per cent of illiterates was shown. The number of soldiers who could not pass reading and writing tests must have been much more than that. Probably many foreigners claim to the census taker to be able to read and write, when they can do so only very poorly. The real test of literacy is not whether a man can barely manage to write his name or read English in a stumbling way. It is whether he can read and understand English so easily that he can assimilate American ideas. The census takers could hardly have time to investigate the situation in this thorough way. Hence the figures of illiteracy that they collect should be regarded as greatly understating the amount of this kind of ignorance. A crisp new bill was said by many people to be the most appropriate New Year's present, but even a limp and soiled old bill was received with enthusiasm. Many of the kickers on high living costs continue to telephone to the stores to have the highest priced goods delivered to the back doors. There are claimed to be some great statesmen in public life now, but so far none of their orations has been printed in the Fifth reader. When the school children go on strike, it is time to spank the parents.

**SCIENCE KNOWS NO WAY TO TAKE POISON FROM WOOD ALCOHOL**

Noted Chemist Declares It Is As Impossible To Prepare Non-Poisonous Wood Alcohol as Non-Poisonous Prussic Acid—Describes Its Effect On Body.

New York, Jan. 7.—Facts concerning the dangers of wood alcohol which are scarcely known to the general public were given today by Dr. Reid Hunt, an American authority on the effects of alcohol, whose researches in this line are regarded as having been more extensive than have those of any other American scientist. Dr. Hunt is the head of the department of pharmacology of the medical school of Harvard university, was formerly at Johns Hopkins, and several years ago was chief of the division of pharmacology of the United States health service, in which position he advised the government in the regulation of the sale of drugs, poisons and intoxicating liquors. "Wood alcohol," writes Dr. Hunt, "has become known as the American poison on account of the frequency with which cases of poisoning have been traced to it in the United States. Despite this fact, there is still a lack of appreciation of its dangers and of an understanding of its nature. The misconception of the dangers of wood alcohol evidently exists not only among those who drink or sell 'alcoholic' beverages of unknown origin, but also to those who prepare drinks containing wood alcohol to the latter class. "Many consumers and perhaps some of those who sell such drinks seem to think that wood alcohol has such characteristic properties that its presence can be readily detected by the odor or taste. On the other hand, those who make such drinks know that this is not the case, but either believe that the poisonous action has been exaggerated or that the chances of detection are relatively slight. "Moreover, testimony was offered in a court a number of years ago to the effect that the manufacturers of flavoring extracts had been approached by dealers in wood alcohol and urged to make their preparations with it. The fact that already at that time the bottles bore the label 'poison' was explained as a mere precaution to prevent the government from placing an internal revenue tax upon wood alcohol. "It cannot be too strongly emphasized that there is not a single property of wood alcohol, except between wood and wood or ordinary or 'grain' alcohol. The appearance, odor and taste of the two are so strikingly alike, that even chemists who have had much experience with them are unable by these means to distinguish between them with certainty. The difficulty, of course, greatly increased when essences, flavors or coloring matters are added, as is the case in the numerous drinks now being offered for sale. Not only can the consumer, however great his familiarity with alcoholic beverages may be, not trust his own judgment in this matter but he cannot trust the judgment of an experienced bar or saloon keeper. "Now as regards the question of the

poisonous properties of wood alcohol. It is inconceivable that any ordinary intelligent person can be in doubt as to this subject, in view of the hundreds of cases of death and blindness resulting from its use. Twenty years ago when such cases first began to be reported there was some reason for little uncertainty in this subject not only on the part of the public, but of chemists and of those physicians who were not familiar with certain pharmacological experiments on dogs. The odor, taste and other properties of pure wood alcohol are so like those of ordinary alcohol, that chemists were inclined to attribute the bad effects from the former to the pretense of impurities in the commercial samples. But none of the impurities in the latter are as poisonous or cause the same effects as the absolutely pure wood alcohol itself. "Pharmacologists, moreover, from experiments on dogs, had, years before, shown that the action of wood alcohol upon the animal organism is fundamentally different from that of ordinary alcohol. This difference may be briefly summarized. When ordinary alcohol is taken into the body it is rapidly converted into water and carbonic acid gas which are harmless substances, all ways present in the body, and any excess of which is promptly eliminated by the kidneys and lungs. Wood alcohol, on the other hand, instead of being changed into harmless substances which are easily eliminated remains in the body as such for a considerable time and is then slowly converted into another poison—formic acid—the acid which is found in ants. These poisons upon the animal organism is fundamentally different from that of ordinary alcohol. This difference may be briefly summarized. When ordinary alcohol is taken into the body it is rapidly converted into water and carbonic acid gas which are harmless substances, all ways present in the body, and any excess of which is promptly eliminated by the kidneys and lungs. These poisons upon the animal organism is fundamentally different from that of ordinary alcohol. This difference may be briefly summarized. When ordinary alcohol is taken into the body it is rapidly converted into water and carbonic acid gas which are harmless substances, all ways present in the body, and any excess of which is promptly eliminated by the kidneys and lungs. Wood alcohol, on the other hand, instead of being changed into harmless substances which are easily eliminated remains in the body as such for a considerable time and is then slowly converted into another poison—formic acid—the acid which is found in ants. These poisons upon the animal organism is fundamentally different from that of ordinary alcohol. This difference may be briefly summarized. When ordinary alcohol is taken into the body it is rapidly converted into water and carbonic acid gas which are harmless substances, all ways present in the body, and any excess of which is promptly eliminated by the kidneys and lungs. ## SOCIAL AFFAIRS

One of the most delightful dances to be given this year was that arranged by the Knights of Columbus at the Elks hall Tuesday evening. The distribution of hundreds of noisemakers and the release of many toy balloons added to the fun. Streamer confetti filled the hall before the close of the dance. Punch was served during the evening and the delightful dance program was given. The following were in attendance:

Mr. and Mrs. William Floyd, Mr. and Mrs. Raymond Dial, Mr. and Mrs. J. W. McNeill, Mr. and Mrs. G. W. Bieble, Mr. and Mrs. Clark Wright, Mr. and Mrs. Bernard Fallon, Mr. and Mrs. J. A. Kennedy, Mr. and Mrs. J. Oscar Juch, Mr. and Mrs. J. Egan, Mr. and Mrs. J. T. Birmingham, Misses Rosanna Lloyd, Irene Winters, Hazel Stuel, Elizabeth McWilliams, Martha Friel, Ethel Fenny, Miriam Fitzpatrick, Eva McDonald, Josephine Yost, Mary Prior, Mary Neimath, Bernadette Winters, Alice Callahan, Frances Oberfield, Frances Bausch, Margaret Fagan, Cecelia Oberfield, Margaret Carr, Freda Richert, Catherine Davis, Eva Winters, Anna Smeltz, Minnie Stauch, Henrietta Jordan, Loreta Dolan, Alice Conley, Virginia Martin, Emma Fetter, Anna McCarly, Mafie Elrat, Vito Stoeper, Bernice Selge, Irma Myers, Frances Orwig, Marie Schaller, Anna Cross, Pauline Phalen, Alice Rector, Anna Guthrie, Emma Wheeler, Geneva Guthrie, Verna Jones, Louise Janson, Marie Johnson, Margaret Hinger, James Locker, James Foran, James McGinley, J. T. Callahan, Leo Reichert, William Cantelary, John Donaldson, M. B. Kennedy, Charles Gilbert, C. H. Williams, Carroll J. Dunn, Bernard Kuater, E. Oberfield, Leo Schaller, Holland Prior, W. A. Anderson, H. Istler, William F. Lavin, W. J. Schopen, Roland Wade, E. J. Schimpff, P. F. Jordan, Leroy E. Dowd, James Grady, H. Noland, Herbert Murphy, Joe Dennison, Raymond Maybold, James M. Schaller, Pete Fallon, E. E. Gilligan, L. W. Manning, B. H. Verheyen, William McDonnell, Fred Cross, James E. Smith, John E. Floyd, Harold Benkenrich, W. A. Gilmore, C. C. Hackett, Edward Moran, R. Cosgrove and children who have been visiting at the home of Mr. Cosgrove's parents in North Buena Vista street left last night for their home in Cheyenne, Wyoming.

Kenneth Kreeger was taken from the City Hospital to his home in the Dayton Road in the Bradley ambulance.

Miss Catherine McGonagle, daughter of Mr. and Mrs. James McGonagle, has returned to Monroe, Michigan, to continue her studies at St. Marys College.

## Everyday Etiquette

"Which side should a lady take when going down stairs with a young man?" asked Esther.

"A man usually walks to the right of a woman, unless by walking on the left he can protect or assist her in some manner," answered her father.

Says Husband Struck Her. Charging that her husband struck her with his fist and knocked her down, Elizabeth Snyder has filed an action for common pleas court asking for a divorce.

The parties were married August 16, 1910. The petition alleges that he has been wifely absent from home for more than three years last past and that he has also failed to provide her with the necessities of life. She asks that she also be restored to her former name Elizabeth Huber.

After all, you've got to give full, fair value. Or you won't last.

## OBITUARY

Arthur Hayes, aged 23 years, died Tuesday evening at 8:40 at his home, 19 Cedar street, following a three weeks' illness of bronchitis. He was a fireman on the Baltimore and Ohio railway and had lived in this city one year, coming here from Barnesville. He was a member of the B. of L. F. and leaves his wife. His parents, four brothers and three sisters survive and live in Barnesville where the body will be sent Thursday morning. Funeral services will be held there Friday morning in the Church of the Assumption and burial will be made in Barnesville cemetery.

Mrs. Josephine Armstrong, widow of John Armstrong, died this morning at her home in West Main street. Death was due to complications following an operation last April.

The deceased was born in County Clare, Ireland, and came to this country when a child. She had made Newark her home for the last 20 years and previous to that lived in Steubenville. Surviving are two sons, Robert of Kansas City and James of Columbus. Mr. and Mrs. Robert Armstrong were with her at the time of her death.

One brother and five sisters also survive: Dennis, Linehan, Miss Nora Linehan, Mrs. Margaret Gould and Mrs. Ellen Bolton of this city, Mrs. Hannah Gaffney of Steubenville and Mrs. Mary Swan of Kansas City.

Death has come to the Linehan family three times within the past eleven months, two brothers of Mrs. Armstrong having died last year. Patrick Linehan of Steubenville died in February and James Linehan in May. Mrs. Armstrong was a devout member of St. Francis de Sales church and a member of the Altar and Rosary society.

The body was removed to the home of the late James Linehan, 131 West Locust street. Funeral services will be held Friday morning at 9 o'clock in St. Francis de Sales church and burial will be made in Mt. Calvary cemetery.

The family requests that no flowers be sent.

Mrs. Christina Kirk, of Hanover, received word of the death of her aunt, Mrs. Christina Kirk, nee Glancy, at her home in Hartford City, Indiana. Surviving are her son, George, of the home and two nephews, Lawrence and Harry Glancy, of Newark.

Mrs. George Kureth. Funeral services for Mrs. George Kureth were held this morning at 9 o'clock in St. Francis de Sales church and burial was made in Mt. Calvary cemetery.

Mrs. Carrie Schlotter. Mrs. Carrie Schlotter, aged 72 years, died Tuesday night at 11 o'clock at the home of her son, Rev. Schlotter, 553 Maple avenue. Death was due to leakage of the heart.

The deceased was born August 31, 1847, in Philadelphia, Pa. Surviving are her son, Fred Schlotter, two sisters and three brothers, a daughter-in-law and six grandchildren.

Funeral services will be held Friday afternoon at 2 o'clock in the home in Maple avenue.

Card of Thanks. We wish to extend our heartfelt thanks to the neighbors and friends for their kindness during the illness and at the death of our beloved father, James R. Schlotter, who passed away at his home, 553 Maple avenue, on Tuesday night, January 6, 1936. The funeral services were held at 9 o'clock on Friday afternoon, January 7, 1936, at the home of Mr. and Mrs. James Raftery, in Curtis avenue. The services were conducted by Rev. Schlotter. The funeral home was in charge of the arrangements. The body was interred in the Mt. Calvary cemetery. The family requests that no flowers be sent.

The Children. We wish to extend our heartfelt thanks to the neighbors and friends for their kindness during the illness and at the death of our beloved father, James R. Schlotter, who passed away at his home, 553 Maple avenue, on Tuesday night, January 6, 1936. The funeral services were held at 9 o'clock on Friday afternoon, January 7, 1936, at the home of Mr. and Mrs. James Raftery, in Curtis avenue. The services were conducted by Rev. Schlotter. The funeral home was in charge of the arrangements. The body was interred in the Mt. Calvary cemetery. The family requests that no flowers be sent.

Milady's Boudoir. No woman with a flat chest can lay claim to any beauty of figure. She is accordingly driven to rely on science to make up for the deficiency of nature. Nature always aims at perfection in all that she does, but when the human factor intervenes to thwart her intent, the result is, inevitably, the spoiling of what might have been a finely achieved example of femininity.

But all hopes for beauty need not be abandoned by one flat or hollow chested woman, for flatness of chest need not be overcome by scientific expansion of the lungs, which will also develop the pectoral or chest muscles, which cover the ribs in front. The combined effect from within and without, both of which are equally important, is a considerably and quite astonishing.

It is all a question of deep breathing, in conjunction with especially applied exercise. Special deep breathing, alone, will result in a surprising improvement. Special food also helps to develop. If one is thin a cup of hot cocoa, a glass of warm milk and a tablespoon of olive oil helps to put on the required flesh. All three of these can be taken in as large quantity as agrees with one. But one should first ascertain the quantity one can take into the stomach, and never overdo it.

Exercise also helps the flat chested woman. Stand before an open window or a doorway porch. If possible wear loose clothing. Breathe twelve times as deep as possible, inhaling through the nose and exhaling through the mouth. Raise the elbows as near a level with the shoulders as possible. Bend the neck and stretch back until the elbows meet.

There is no more valuable aid to beauty than the appearance of the face, a fact which most women realize. When you give your face a regular daily ten minute massage one must have a good cream, and if you have not one already to your liking, I should like very much to have you try this recipe of mine.

It is made of sweet almond oil two ounces, spermaceti one ounce, coconut oil two ounces, white wax one ounce, tincture of benzoin three drops, lanolin two ounces and orange flower water two ounces.

After putting together all of these ingredients, except the benzoin and orange flower water, let them mingle by setting in a dish over a slow flame. When they are melted take from the fire, beat with an egg beater and, when nearly cold, add the benzoin drop by drop, stirring constantly. Put the orange flower water in a thin stream while beating the mixture.

In addition to the cold cream, the well groomed woman, particularly if of middle age, should have a good wrinkle-astringent. The glycerine astringent I here give you is a determined foe of all wrinkles and every woman should have it on hand for daily use. Here is the formula: Glycerine one hundred grams, the same of alcohol and benzoin, rose water two hundred and fifty grams, borax acid fifty grams. Let the borax acid dissolve in the alcohol, then add the glycerine, next the rose water and, lastly, the benzoin.

## STAGE GIVES US THIS NEW FROCK

Often the most beautiful fashions are exhibited on the stage, but rarely are gowns worn which would be practical for the home woman. Here is an exception, however. It is a dainty gown for afternoon or dinner wear made by covering a black satin slip with an overskirt of black net. Miss Florence Shirley wears this frock in "Apple Blossoms."

## Our Boys and Girls

Every child's diet should consist of a certain of proteins and bone building material. The dinner for each child under ten should be at noon and followed by a light supper. Here are a few suggestions that may help the mother. For breakfast a raw apple pared, sliced or scraped, cracked wheat with milk, all that the child will eat and whole wheat toast. The milk can be hot or cold.

For dinner boiled halibut with a milk gravy, baked potatoes, boiled parsnips that have been mashed well and seasoned, a stalk of celery and snow pudding with a custard-sauce. Supper may be milk toast or a poached egg in milk, oatmeal cookies and, sometimes, well cooked fruit tipples.

Another breakfast could be of stewed dates, a dish of browned rice with rich milk, toast and a cup of hot cocoa. Dinner a lamb chop, a baked potato, stewed carrots and a baked custard. Supper baked apples with milk, a glass of milk, a cream soup and ginger cookies. Baked potatoes may be given every day, and should be given at least four times a week. There is a great deal of nourishment in baked potatoes and very little in potato served in any other way.

There are many cases of babies cutting stomach teeth who cannot keep a particle of food on their stomachs. If case is very serious, of course a doctor should be called. There are a few suggestions that may help. The child must have a free action every day. This is most important, as constipation at such a period often causes vomiting. Give the baby two ounces of vichy water half an hour before his breakfast each morning.

Try kumyss, whey, mutton and chicken broths, which have had all of the fat removed. The broths should be given one day, allowed to stand over night in a cool place, and in the morning all of the grease removed. Then it is ready to be given to the child. At this time of year the broths will keep for thirty six hours.

Any of the things above will be more likely to remain on the baby's stomach than milk. Sometimes a little vichy must be retained better than a fluid, but of course something more substantial must be taken during the twenty four hours. If the bowels are in the least constipated, magnesia or other laxative must be given before you can hope to stop vomiting.

## Twenty-Five Years Ago

(From Advocate, January 7, 1936)

R. P. Ford retired from the office of sheriff today. He had been in office one term.

Miss Gertrude Morey and Blanche Dillon entertained with a new year's party at the home of Miss Morey.

Miss Grace Gorbey is visiting friends in Zanesville.

Mr. and Mrs. Clarence H. White of North Third street, announce the birth of a son.

FIFTEEN YEARS AGO. (From Advocate, Jan. 7, 1921) Gas from the Whorle company's new well has been turned into the furnaces at the Whorle stove foundry. Brilliant & Ellis have opened their new grocery in the union block. A big gas well at High Water, showing a flow of 6,000,000 feet daily came in Monday.

Mrs. David Walker and Miss Clara Moore entertained with a surprise birthday dinner in honor of their mother Mrs. Martha Moore Tuesday evening.

Marriage License. Edward E. Hough, a contractor of Columbus and Miss Martha Marie Casper of this city. Rev. L. C. Sparks to officiate.

Correll F. White, a draftsman and Miss Mabel E. Retch both of this city. Rev. H. E. Dunmore to officiate.

D'Annunzio, we might add, has written the epic of Fiume, but the league of nations will have to read the proofs.

Philadelphia Ledger.

## MAN AND WIFE WENT 50-50 ON TRYING IT OUT.

She Had Stomach and Liver Trouble; Also Rheumatism. He Had Pain Under His Short Ribs and Backache.

Bought a Bottle of the Medicine Drego and Divided It Equally; Now Both Are Over All Their Pains.

"I was laid off from work most all the Summer because I felt so tired and worn out all the time; had a severe pain under my short ribs on the right side. My back ached; my kidneys were all wrong and my liver very sluggish," said Mr. John Worman, who resides at 201 Parish Ave., Hamilton, O.

"I had severe dizzy spells that made me stagger like a drunken man; had a slimy bad taste in my mouth, a bad cough at night and such pains that I could not sleep.

"My wife suffered from her stomach so that she couldn't eat much because my stomach bothered her day and night and everything went back on her. Her kidneys suffered a great deal from rheumatism.

"My wife asked if I wasn't going to let her take some of this Drego and I said we would go fifty-fifty on it, so I divided the bottle between us. It is wonderful how both of us have been helped by this grand medicine. I feel so much stronger and am working every day. My liver has been cleaned off so that I don't get dizzy any more and my breath is sweet and pure; pains are all gone and the cough too, so that I sleep sound every night. My wife never has a pain and her stomach seems able to take care of everything she eats. Drego sure did both of us a lot of good."

Drego, the herbal remedy, that did so much good for this good couple is a vegetable remedy, containing no iron, mercury, potash, nor any acid nor oil. It acts on the stomach to assist in digesting the food; rouses a sluggish liver to full action; strengthens the kidneys, quiets the nerves, induces sound sleep, expels catarrh of the nose and stomach and rebuilds a rundown system.

All good druggists now sell Drego and it is highly recommended in Newark by Evans' Cut Rate Drug Store.

## RIGGS DISEASE OF TEETH AND GUMS

Don't Lose Your Teeth From Pyorrhea. Make Diseased Gums Healthy and Teeth Tight With This New Prescription—Instant Relief.

If you have Pyorrhea or Riggs Disease and your teeth are loosening or if your gums are receding or are sore and tender, inflamed or bleeding, spongy or flabby or if they discharge pus, do not give up in despair and decide that they must have your teeth pulled and wear a set of false teeth all your life.

A prominent New York State dentist has discovered a new prescription—Epithol—which works wonders in just such cases and it is sold here in one-ounce jars by T. J. Evans and other leading druggists on an absolute guarantee that unless it corrects your trouble and makes your gums sound and healthy and teeth tight, the money you paid for it will be refunded.

People who have used Epithol say its action is wonderful. Glen Stiner says: "My gums were sore and badly inflamed. I used Epithol a short time and all soreness has disappeared and my gums are healthy and well." Epithol works quickly. Its promptness, certainty and ease in overcoming diseases of the gums are a revelation to those who try it—Adv.

Sailors Rejoice at Shark's Capture. One of the most curious of the superstitions of the sea is that pertaining to the capture of a shark. All hands, from the captain down to the cabin boy, take a keen interest in the proceedings, and, having successfully landed the shark on deck—an operation involving no little excitement—it is killed and its tail cut off. This trophy is then nailed either on the end of the bowsprit or the jibboom and is considered an infallible charm, capable of bringing the craft the fairest of winds and weather. It is not uncommon to observe sailing ships lying in port with this peculiar emblem of the sailor's superstition, but the custom is fast dying out, since, in the case of steamers, a shark capture at sea is a very rare occurrence.

There is no higher rank than that of worker. No title can ever make a loafer a nobleman.

## NERV-WORTH IS STILL SELLING AT ONE DOLLAR

Makers Contribute Their Share Towards Keeping Down the High Cost of Living.

"Your Dollar Back" Still Goes in Nerv-Worth Advertisements.

Some time ago, compelled by enormously increased costs in production, advertising and distribution, we notified druggists that it would be necessary for use to secure greater returns from the sale of Nerv-Worth. Two methods offered themselves: a higher price to druggists or a reduction in the size of our bottle. The latter course involved delays incident to a change in bottles, cases, etc., so we took the shorter way and advanced the price to druggists. Dealers who bought at the advance put up the retail price; most of the others continued the sale at \$1.00 out of older stocks.

When we made the decision first steps were taken to reduce the size of Nerv-Worth bottles, in the hope that thereby we could get back to the old popular dollar price. Those steps have now progressed to the point where the necessary size-changes are in sight. But a chance offers now to do something toward keeping down the high cost of living for the immediate present, at least, and effective Jan. 1, 1936, we have enabled every bottle of Nerv-Worth we bought Nerv-Worth at the advance to sell the preparation at once at one dollar instead of waiting for the size-changes to be made.

In our plans to reduce the bottle contents, we are seeking to cover all the loss entailed by vastly higher costs. To continue giving the public a big dollar bottle of Nerv-Worth we are making a costly sacrifice. Our existing Nerv-Worth bottle contains 16 ounces and is one of the largest of its class. The new one will not be disappointingly smaller. Nevertheless, until it comes Nerv-Worth users will get the biggest medicine bargain of the day by buying 16 oz. bottle of Nerv-Worth at a dollar. And so again we say:

YOUR DOLLAR BACK

IF NERV-WORTH DOES NOT BENEFIT YOUR HEALTH NERV-WORTH CO., Zanesville, Ohio.

T. J. Evans sells Nerv-Worth in Newark. Neighborhood agencies: Union Drug Store, Union; C. S. Howard, Johnstown; W. P. Ullman, Granville.—Adv.

**RESOLUTION NO. 922.**  
By Mr. Newkirk.  
Whereas it is necessary to improve Mt. Vernon Road from Chas. street to the North Corporation line, Chas. street from Mount Vernon Road to the east line of Maple avenue and Hudson Avenue from Chas. street to Smith street, by curbing and paving the roadway thereof;  
Be it resolved by the Council of the City of Newark, State of Ohio; three-fourths of all the members elected thereto concurring:  
Section 1. That it is necessary to improve Mt. Vernon Road between Chas. street and the North Corporation line, Chas. street between Mt. Vernon Road and the east line of Maple avenue and Hudson Avenue between Chas. street and Smith street, Newark, Ohio, by curbing and paving the roadway thereof in accordance with the plans, specifications, estimates and profiles of the proposed improvement prepared by the City Engineer, now on file in the office of the Director of Public Service, which are hereby approved which shall be open to the inspection of all persons interested.  
Section 2. That the material used in the construction of said improvement shall be neat, brick, stone, cement or other material as shall hereafter be determined.  
Section 3. That the grade of said street shall be as follows:  
Mt. Vernon Road.  
The grade of the curbs and the center line of the street shall be as described herein commencing at the north line of Chas. street at an elevation of 128.65 feet above the established datum of the City of Newark, Ohio, which is the present elevation of the curbing now existing at this point, thence northerly by a straight grade to the south line of lot No. 47 at an elevation of 128.3 feet, thence northerly by a vertical reverse curve to the south line of lot No. 47 at an elevation of 117.74 feet, thence northerly by a straight grade to the north curb line of Smith street at an elevation of 116.5 feet, thence northerly by a straight grade to the south line of Cottage street at an elevation of 115.4 feet, thence northerly by a level grade to the north line of Cottage street, thence northerly by a straight grade to the north curb line of Chas. street at an elevation of 116.5 feet, thence northerly by a straight grade to the north corporation line at an elevation of 117 feet.  
Chas. Street.  
The grade of the curbs and the center line shall be as described herein: commencing at the east line of Mt. Vernon Road at an elevation of 116.5 feet above the established datum of the City of Newark, Ohio, thence easterly by a straight grade to the west line of the alley between lots numbered 7 and 8 at an elevation of 115.3 feet, thence easterly by a straight grade to the west line of the alley between lots numbered 18 and 20 at an elevation of 113.3 feet, thence easterly by a straight grade to the west line of the alley between lots numbered 30 and 32 at an elevation of 112.15 feet, thence easterly by a straight grade to the west curb line of Hudson Avenue at an elevation of 111.8 feet, thence easterly by a vertical reverse curve to the west rail of the Baltimore and Ohio Railroad at an elevation of 115.04 feet, which is the present elevation of said rail, thence by a level grade to the east rail of said railway company's tracks, thence easterly by a vertical reverse curve to the west line of Crilly street at an elevation of 111.35 feet, thence easterly by a straight grade to the east curb line of Hollander street at an elevation of 110.5 feet, thence easterly by a straight grade to the west curb line of Maple avenue at an elevation of 105.2 feet, thence easterly by a level grade to the east curb line of Maple avenue.  
Hudson Avenue.  
The grade of the curbs and the center line shall be as described herein: commencing at the north line of Smith street at an elevation of 111.1 feet above the established datum of the City of Newark, Ohio, which is the present elevation of the curbing now existing at this point, thence northerly by a straight grade to the south line of Chas. street at an elevation of 111.8 feet, as shown on the plans and profiles now on file in the office of the Director of Public Service.  
Section 4. That the whole cost of said improvement, less one-fifth thereof and the cost of intersections shall be assessed by the foot frontage upon the following described lots and lands, to-wit: All lots and lands bounded by and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments and all other necessary expenses.  
Section 5. That the assessments so to be levied shall be paid in twenty (20) semi-annual installments with the interest on the deferred payments at a rate not to exceed six per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days from and after the passage of the assessing ordinance to the City Treasurer; in which case said cash assessments shall include any item of interest upon bonds to be issued in anticipation of the deferred installments of assessments.  
Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.  
Section 7. That the remainder of the entire cost of said improvement not specially assessed, including cost of intersections and damages awarded any owner of adjoining lands, and interests therein and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.  
Section 8. That Resolution No. 916 be and the same is hereby repealed.  
Section 9. This resolution shall take effect and be in force from and after its passage and legal publication.  
Passed, December 29th, 1919.  
Attest: GEO. H. HAMILTON, Mayor.

William O'Bannon's property and the east line of Neal Avenue M. # EFFICIENCY

EFFICIENCY suffers while the world argues peace, wages and working conditions—and its as true of a bank as other businesses. Let us all pull together for efficiency.

This bank refuses to be blinded by the small things near at hand and not see the very big things just before it. It is a satisfying way of looking at things, too. Its efficiency today lies in its desire to co-operate with "Business" and render the all-round financial help that Business wants. That is the basis on which its solicits accounts.

IN CRITICAL GAME

Heiseys Shatter Perfect  
Record of A. B. C. Team  
In Thriller at Hickey Hall  
—Crowd Kept On Toes.

League Standing.

Team	Won	Lost	Pct.
American Bottle	6	1	.857
Heisey	4	1	.800
B. and O.	3	1	.750
American Motor	1	2	.333
Wheeler	1	2	.333
Midland	1	2	.333
Burke Golf	0	6	.000
Holophone	0	6	.000

Thursday's Games.  
B. and O. vs. Wheeler.  
Midland vs. Holophone.

The American Bottle team met its first defeat of the season last night when it clashed with the Heisey squad. The attendance record was smashed. Every spectator was kept on his toes during the playing periods of the first game and it was a decided relief for the intermission to be called between halves to relieve the tension. "Pick" Huffman's spectacular shooting brought the crowd to their feet more than once. The first half ended 8 to 7 in favor of Heiseys. Up until the last two minutes of play it was anybody's game, but in those remaining minutes Huron broke way from his guards and with clever assistance of his teammates was able to slip in three baskets in quick succession. Final score: Heisey 25, American Bottle 14.

Heisey.

The absence of the golf men's star guard has been felt in the first two games. F. Keck fell out of the game for the rest of the season on account of the binding of his leg muscles. The playing of Broome at center last night received comment from the fans. Wobbecke broke into the game by relieving Snyder at forward and gave good account of himself by scoring two field goals. No one seemed to doubt the final outcome of the contest though the Motor truck boys were a bit slow in getting their scoring machine to working. Hager made his first appearance in a Motor uniform and boosted the team score with four baskets. Allen as usual figured heavily in the point column. Final score: American Motor 30, Burke Golf 14.

Whehies entered the name of a new man, H. Ingram, who will be able to play January 27.

Referee: Millson, times Barrick, scorer: Grieser, 15 minute halves.

If you cultivate your talents you'll always find an opportunity to use them.

FRANK KRAMER, NOTED  
AMATEUR B. B. MAN DIES

Columbus, Jan. 7.—While his friends were planning a benefit dance in his honor Frank Kramer, secretary of the Columbus Amateur Baseball association, died yesterday noon at his home following a long illness of chills and fever.

Until a year ago Kramer was in almost perfect health. Then he suffered an attack of influenza, from which he never entirely recovered, although he was around about as usual during the most of the summer and in spite of the fact that he was 49 years of age played in several baseball games.

He was one of the founders of the Columbus Amateur Baseball association and of the Empire and Scorers' association and held membership in both until his death. He was also a member of the South Side Civic association and of the Fraternal Order of Eagles.

He is survived by a widow, formerly Miss Carrie Krieger, two daughters, Miss Lucille and Mildred Kramer and one brother, William H. Kramer.

Kramer staged one of the most unique games ever seen in Columbus. On January 21 1906 he put on a game at the old Oakwood grounds, the weather on that date being ideal for the national game and Kramer's love for the sport leading him to organize two teams for the game.

Everything is set for the big sportsmen's congress and banquet in Columbus January 15. There will be an afternoon and evening program, with a banquet at 8 o'clock. Speakers of national reputation in the work of game conservation will be on the program and Cox Cox will address the sportsmen in the evening. The assembly will be held at the Elks home on East Broad street instead of Hotel Deshar as first announced. At least 1,000 sportsmen and farmers are expected. One of the leading objects of this meeting is to bring about a friendly cooperation and better understanding between farmers and sportsmen in the fish and game matters and the movement for "More Game and Better Fishing" that is being instituted by A. C. Baxter, chief of the bureau of fish and game.

OHIO SPORTSMEN TO  
HOLD BIG MEETING

The Ohio fish and game motion pictures which have been made by the bureau of fish and game during the past year will be shown for the first time at this affair. These pictures are both educational and entertaining and are probably the biggest move picture of its kind ever produced by any state department. There will be eight reels showing every phase of the work of the fish and game department. All sportsmen and farmers interested in the fish and game department are welcome.

MRS. KERR REQUESTED  
CREMATION OF BODY

Details of the death and burial of Mrs. W. P. Kerr, which occurred in the east, are given in a letter written by Mrs. Rosa Kerr to a friend in the village. Mrs. Kerr, who was in her 80th year, died after only two days illness at the home of her daughter, Mrs. Harriett Breck in Newton Highlands, Mass. Funeral services were held in the Congregational church of that suburb on Sunday and the body was cremated at Forest Hills in compliance with her own wishes. Her three children survive, Mrs. Harriett Breck, W. P. Kerr, of Philadelphia, and George N. Kerr, of Providence, R. I.

The Attorney-General says that every "Reo" in the country is ticketed. And let us hope that the tickets are of the one-way variety. —Cleveland Plain Dealer

The fellow who isn't fired with enthusiasm is apt to be fired.

BAPTIST WORK IN  
OHIO IS DIRECTED  
FROM GRANVILLE

Ohio Baptist Convention  
Has Headquarters in Village  
With Staff of Half Dozen  
Workers Employed.

To those who imagine that office work consists in holding down a desk chair and playing tunes on a typewriter a visit to the headquarters of the Ohio Baptist Convention, Broadway and Prospect street, might prove illuminating.

Under the direction of Rev. T. F. Chambers, D. D., who became executive secretary of the convention in 1915, the convention work has grown to great proportions.

With Dr. Chambers and eight other field workers in addition to this important work is being done in aiding the weaker churches of the Baptist denomination in Ohio. Many phases of work are included, such as evangelism, church edifice, foreign work, negro work, rural church, Baptist students, religious education, and promotion. E. E. Hopkins, treasurer of Denison university, is also treasurer of the convention and the amount received for the work during the last year was in round numbers, \$40,000. In some of its departments the convention co-operates with the national denominational societies. This is the case in the work among foreign-speaking people, religious education, Baptist students, and promotion.

W. A. Holmes is director of religious education with offices in the headquarters building. This department has charge of the Sunday school work, young people's work, training classes, and similar lines.

Under direction of this department correspondence is had with Sunday school superintendents, pastors and young people's society leaders in all parts of the state. Instructions for the help of the workers are given in printed sections, the aim being to hold at least one such meeting in every one of the 29 Baptist associations of the state. Rev. C. E. Stanton with offices in the same building has charge of Baptist denominational promotion.

At this time, practically all the convention force in addition to the regular work, is assisting in the task of the new world movement in which \$100,000,000 is being raised for missionary and educational work.

Besides the five district superintendents, the convention has in office force consisting of Mrs. Marie S. Buck, secretary, Miss Florence Tuttle, bookkeeper, Mrs. C. E. Stanton at present editing the "Baptist Bulletin".

In addition to his work of general supervision, Dr. Chambers is editor of the convention periodical, "The Ohio Baptist Bulletin" issued bi-monthly.

POSTMASTER IS READY  
FOR NEXT W. S. S. DRIVE

Postmaster John Geach has received the 1920 issue of War Savings Stamps and is ready to accommodate all purchasers. Last year's sales through the local post office amounted to \$73,135 and Postmaster Geach looks for an equal if not larger sale this year.

The post office force at present consists of Miss Belle McDonald, Miss Grace Ackley and Miss Claire Geach.

COLLEGES BAN  
SUNDAY PLAY

Graduates Who Take Part  
In Football Games On  
Sunday Will Lose Honors  
Gained in College.

Professor Walter J. Livingston, spent three days of his vacation in New York City stopping en-route for a brief visit with relatives in Philadelphia. His visit to the metropolis was consumed with meetings at the Astor hotel of the various Athletic societies with which he is connected. On Monday he attended the meeting of the National Collegiate Physical directors; on Tuesday a meeting of the National Inter-Collegiate Athletic association; on Wednesday a meeting of the National Athletic Research society. Secretary of War Baker addressed one of the meetings, and General Bullard of the A. E. F. addressed another.

Among the results accomplished were first the vote against professional Sunday football. Any college man who engages in professional football, even after his graduation, will have his letter taken from him. A committee was appointed to go before congress to secure legislation providing for the development of physical training in the lower grades.

By 1923 all students who graduate intending to teach must have a certificate passing successfully the physical training course. Colleges will only play opposing colleges that respect the freshmen rule. Some of the efficiency tests will be required of students before they can graduate in physical training. These are only a few of the rulings of these national associations which affect college athletics.

MOTHERS' CLUB HOLDS  
ANNUAL ELECTION

The annual meeting of the Granville Mothers' club was held Monday evening with Mrs. Johnston the president in the chair. Responses to roll call were "Great Thoughts for Small People." Election of officers resulted as follows:

Mrs. M. M. Shoemaker, president. Miss Forbes Wylie, first vice president and chairman of the civic committee. Mrs. T. A. Lewis, second vice president and chairman of the educational committee. Mrs. Yingling, third vice president and chairman of the social committee. Mrs. Johnston, chairman of the program committee. Mrs. Edson Rupp, secretary. Mrs. Will Thomas, treasurer.

Following the business a social hour was enjoyed with a White Elephant gift party and the service of refreshments by the hostess Mrs. T. A. Lewis and the social committee. The next meeting will be at the home of Mrs. H. W. Deming on January 19th and to this the fathers are invited.

PETERS & MORROW  
HAVE AMBULANCE

Peters and Morrow's new undertakers, occupying the mid-Pollett house in Broadway, have received a new ambulance.

KING'S DAUGHTERS  
HOLD MEETING

The King's Daughters, who for weeks have worked faithfully for Christmas cheer in the community, held a meeting Monday evening calculated to direct and relax the weary workers. There was no program and no business. Devotional service was led by Mrs. Bert Everett, after which the "exchange of white elephants" began. Mrs. Mabel Ashton presided at the piano and during the playing the wrapped packages circulated among the members and guests, when it ceased the objects stayed with those in whose hands they were found. Refreshments were served by Mrs. Lake. Mrs. Fred Williams, Mrs. Cora Rose, Misses Stella and Grace Griffith. There was a "Birthday Stunt," and each group presented a parade, music, recitations and one gave a mock wedding. Mrs. J. W. Rohrer made a hit with a humorous song.

NEW SCHOOL BOARD  
ORGANIZES FOR YEAR

The Granville Board of Education met in the office of the Board Monday morning with the following members present: A. C. Nichol, Dr. J. W. Rohrer, A. L. Platter, W. A. Barnes and Prof. A. Olech. The meeting was called for reorganization. After business had been dispatched and books closed for the year, the board adjourned. The board at once proceeded to organize for the ensuing year. W. A. Barnes and J. W. Rohrer retiring from the old board. Dr. Rohrer and Dr. Loveless, who were chosen at the November election, were present and qualified. The result of the election was A. P. Nichol, president; H. L. Heck, vice president; Dr. J. W. Rohrer, secretary. The board will meet on the first Friday of each month during the ensuing year.

HERE AND THERE  
IN THE VILLAGE

The Pioneer Meeting Bee will meet Thursday afternoon at 2 o'clock at the home of Mrs. Jol. Thomas, in Pearl street.

President C. W. Chamberlain left last night for Atlantic City to attend the meeting of the Int. Church World Survey conference.

COLLEGES BAN  
SUNDAY PLAY

Graduates Who Take Part  
In Football Games On  
Sunday Will Lose Honors  
Gained in College.

Professor Walter J. Livingston, spent three days of his vacation in New York City stopping en-route for a brief visit with relatives in Philadelphia. His visit to the metropolis was consumed with meetings at the Astor hotel of the various Athletic societies with which he is connected. On Monday he attended the meeting of the National Collegiate Physical directors; on Tuesday a meeting of the National Inter-Collegiate Athletic association; on Wednesday a meeting of the National Athletic Research society. Secretary of War Baker addressed one of the meetings, and General Bullard of the A. E. F. addressed another.

Among the results accomplished were first the vote against professional Sunday football. Any college man who engages in professional football, even after his graduation, will have his letter taken from him. A committee was appointed to go before congress to secure legislation providing for the development of physical training in the lower grades.

By 1923 all students who graduate intending to teach must have a certificate passing successfully the physical training course. Colleges will only play opposing colleges that respect the freshmen rule. Some of the efficiency tests will be required of students before they can graduate in physical training. These are only a few of the rulings of these national associations which affect college athletics.

SCHOOL HEAD IS WELL  
EQUIPPED FOR WORK

Within the past few years there have been many changes in Granville schools, but for two years affairs have been successfully administered by Superintendent A. B. Conklin, who came to Granville after four years as superintendent of the public schools at Waterville, preceded by two years experience as teacher at Weston. Superintendent Conklin is a graduate of Weston high school and of Wooster college with the degree of B. Sc. While a student he served for two years as secretary treasurer of the Ohio Inter-collegiate Oratorical association and following his graduation he did important work at the Bowling Green State Normal school and at Miami University. He is at present president of the Licking County Teacher's association; a member of the Ohio State Teachers' association and of the National Educational association. In common with many other educators he finds himself handicapped by restricted quarters and a shortage of funds.

A. B. CONKLIN.

The community federation of Granville women announces the next regular meeting for Tuesday afternoon at 2:30 in the community rooms.

FEDERATION WILL  
MEET TUESDAY

Mrs. M. E. Stickney, president of the community federation of Granville women announces the next regular meeting for Tuesday afternoon at 2:30 in the community rooms.

GIVES HISTORY OF  
SCIENTIFIC JOURNALS

The Denison Scientific association at its forthrightly meeting Tuesday evening presented but one paper on the program, prepared and read by Dr. P. D. McCutcheon on the "History of Early Scientific Journals in English." These meetings have been held regularly without lapse on each alternate Tuesday ever since the founding of the society in April, 1907, by the late Mr. Robert Luther Horrick, at that time head of the department of chemistry in Denison—and the society which embraces all departments in the university has played an important part ever since in the scientific life of Denison. The files of the Bulletin issued by the society has been added a valuable library of the proceedings of learned societies all over the world. The only charter member who still is connected with the society is Dr. C. T. Kassmaul. Following the election the board elected J. S. Graham, president; E. A. Smoots, vice president; C. B. Slack, cashier and Roderick Jones, Newark, attorney.

Rev. C. E. Stanton is in Atlantic City attending the Inter-church World Survey conference.

**Laylin Grange Meeting.**  
Laylin Grange will hold its next regular session Friday evening. The program for the evening will consist of four-minute talks by the Master, Overseer, Chaplain and Lecturer. Also a play is to be given by ten patrons entitled "Jonesville Grange Initiation."

**Mrs. Don Moore Ill.**  
Mrs. Don Moore, wife of Major D. G. Moore, U. S. A., and a member of the class of 1911 of the Newark high school, has been seriously ill for the past two months in Walter Reed Hospital at Washington, D. C., where Major Moore is on duty.

**Hours Is Changed.**  
Evangelist Champion will speak on the "Holy Spirit" this evening at the Tenth Street U. B. church. Rev. R. E. Carmen will sing at the services. The hour of revival services has been changed from 7 to 7:15 o'clock.

**War Savings Stamps.**  
Only two counties in Ohio exceeded Licking county's sale of War Savings Stamps in 1919. Hamilton county (Cincinnati) sold \$2,383,900 worth of S. S. Franklin (Columbus) \$1,404,000; Licking (Newark) \$1,071,600. Cayahoga (Cleveland) \$1,033,000. Morrow county is credited with the sale of \$501,600, or \$28.66 per capita. Licking being second in per capita sales. Ohio exceeded all states in both aggregate and per capita sales.

**A Famous Violinist.**  
Mischa Elman will give a concert at Memorial hall, Columbus, tomorrow evening under the direction of Miss Kate M. Lacey. Josef Bonime is the accompanist.

**Take Trip for Teachers.**  
Twenty-two teachers in Ohio making the best War Savings records for the first five months in 1920 are to be given a lake cruise next summer. They will have a week of pleasant travel that will carry them to Cleveland, Buffalo, Niagara Falls, Detroit, Mackinac, Chicago and Georgian Bay. District No. 21 from which one teacher will be sent consists of Licking, Fairfield, Hocking and Vinton counties.

**Police Chief James Sheridan** and Captain Charles Hager were called to West Main street last night at a late hour where they found a number of men engaged in a private game of draw poker. Several escaped over the roof but three of the men of sporting proclivities were taken into custody, together with a number of packs of cards, dice and a bottle of elder blossom wine. This morning they were arraigned in municipal court and each was fined \$5 and the costs by Judge F. A. Bolton, which was paid and they were released.

**Arrests Train Riders.**  
Officer Stauffer of the Pennsylvania police department brought three men to the city prison last night and stated them train riding and suspicion. They were remanded to the county jail today by Municipal Judge F. A. Bolton until a further investigation can be made. It is said that one or two stations along the line have been broken into lately and a strict surveillance of all train riders is being made.

**Wrist Broken in Fall.**  
Mrs. Frank Preston while doing her work this morning at her home, 216 Central avenue before leaving for the People's Market where she operates the Huber bakery stand, stepped out on the steps slipped on the ice and broke her left wrist. Dr. Harry Postle reduced the fracture.  
**Condition Improves.**  
H. E. Neely who was operated on at the City Hospital a week ago, is

steadily improving, but will not be able to leave the hospital for a couple of weeks. He resides in the Hanover road a mile east of Weiant's.

**Has Serious Operation.**  
Mrs. Arthur Davis of North Fourth street, underwent a serious operation at the Private Hospital in Granville street, Tuesday. Mrs. Davis rallied from the operation and her condition is very satisfactory. Dr. Burrett of Columbus performed the operation.

**Debate Trials Thursday.**  
The debating teams will meet Thursday evening at 7:30 at the high school for the final tryout for the teams for the triangle debate to be held the middle of March between Zanesville, Mt. Vernon and Newark teams. There will be five judges, three high school teachers and two men from the city.

### SHOWS AMERICAN SONGS ARE WORTH HEARING

Any one who missed the recital given last night by Bentley Ball at the High school auditorium overlooked the most important musical event of the season.

Mr. Ball was in excellent form, his voice clear, resonant and compelling, his diction perfect.  
Past master in the art of program making he presented correlated groups including music of the tribal Indians, pioneers, cowboys, negro's and rounded the evening by an exquisite group of modern American songs. Presenting each number with a terse, graceful explanatory word, it gave point and interest to the working out of the gradual development of American songs.

It is along this educational line, Mr. Ball has been working for some time crystallizing the very unique program which was heard last evening.  
The curiously tragic and quaintly humorous music of the Indians, some unaccompanied brought out the rich, sonorous timbre of Mr. Ball's voice.

While the pioneer narratives, notably "Bangum and the Boy" and the Cowboy Home on the Range and Jesse James and Dying Cowboy gave the more picturesque touches of early American history. The wonderful negro spiritual "Sinners, please don't let this harvest past," touched the heart. The negro songs, of course brought Old Folks at Home and the Old Dan Tucker, favorites of long ago.  
Of the modern songs perhaps The Victor by Burleigh was the finest, although the charm and finish of Katharine Glenn's "Twilight" brought waves of applause. Appropriately, the program closed with James Roger's brave song "The Time for Making Songs has come."  
Mr. Ball has earned much in the past year. A finished artist in every sense of the word he brought to the large and very appreciative audience last night with his lovely music and keen the results of his long and serious efforts in the direction of education in American music. To Mr. Ball has been given the honor of the first recorded recital, done by the Columbia company, an achievement of which he may well be proud.  
To Miss Ross Hagmeier, well known pianist, must be awarded unstinted praise for her artistic and sympathetic accompanying, adding much to the beauty of the concert.

### HEALTHY, ROBUST PEOPLE POPULAR EVERYWHERE

Good Health Creates an Attractive, Magnetic Personality and Wins Admiration

**Healthy People Are Happiest**  
Pepto-Mangan Has Put Thousands into the Healthy, Full-Blooded Class

How the red-blooded, energetic, and attractive man or woman is envied by those who feel that it will always be their unfortunate lot to be thin, pale, and weak-bodied.  
And yet why continue to envy men and women who possess a vigorous, healthy physical condition and an attractive, magnetic personality? Poor health and lack of vitality are often merely the result of impoverished blood.

Gude's Pepto-Mangan is for people whose bodies suffer from lack of proper blood nourishment. Pepto-Mangan enriches the blood and increases the number of healthy red blood cells, which are so necessary to carry the proper nourishment, vigor, and strength to every part of the body.  
Physicians introduced Gude's Pepto-Mangan to the public because they knew that it contained the very properties that are so sorely needed to build up thin, watery blood. For your convenience Pepto-Mangan is prepared in two forms, liquid and tablet. Both contain exactly the same medicinal value.

Insist on the genuine Pepto-Mangan. To be sure you are buying the genuine Pepto-Mangan, ask your druggist for "Gude's." And be sure the name "Gude's" is on the package.—Adv.

### STATE GRANGE OFFICER WILL GIVE ADDRESS

The Licking County Potomac Grange will meet in the Woodman hall, South Park Place, Newark, Saturday. The grange will be addressed by Mrs. W. G. Vandenberg, Zanesville, wife of the state secretary and chairman home economics committee Ohio State Grange. The following program will be rendered:  
Solo piano—Mrs. R. H. Spiker, Wyoming Valley, Katish.  
Alphabet quartette—Centennial.  
Reading—Ernest H. Adams, Newark.  
The Business of Being a Farmer—Mrs. Vandenberg.  
Reading—Mrs. Holman, Perryton.  
Solo vocal—Miss Ethel Hull, Thorny Point.  
Essex Kinnison quartette—Kirkersville.  
Reading—Ernest H. Adams, Newark.  
Solo piano—Miss Edith Conrad, Granville.

### THIRD SON ENLISTS FOR SERVICE IN ARMY

John J. Buckner, son of Elizabeth Buckner, 274 Wilson street was accepted yesterday by Sergeant Barlow at the local army recruiting station. He enlisted for infantry service on the Mexican border and will be assigned to the 37th infantry in which regiment he has a brother who enlisted here last month. They also have a brother in the 43rd infantry who has served during the entire period of the war and will soon be discharged.

## Remember This.

One advertisement will not do the work, neither will two advertisements. It takes continuous advertising to bring home the bacon. That is the reason our large institutions are larger. They were small businesses a few years ago, but through continuous advertising they have grown to large institutions. Think this over.

## WINEGARNER MENTIONED FOR SECRETARY OF STATE

Guy R. Winegarner, county clerk of Franklin county, is being quickly boomed for secretary of state. He is a Democrat and is well known in this city where he has a legion of friends, especially among the members of Newark Lodge of Elks, having frequently attended their social functions and proved a pleasing after dinner speaker. Winegarner's friends state that sentiment is strong for him, especially in Cleveland and Cincinnati, and he is being importuned to make the race but is non-committal.

## AMUSEMENTS

### AUDITORIUM.

#### Norma Talmadge.

The large cast supporting Norma Talmadge in her Select Picture, "The Safety Curtain," which Manager Fenberg has booked for the Auditorium for Friday and Saturday, strengthened by about fifty people employed in an ensemble scene were the recipients of a gracious place of hospitality by their star one day during the filming of some of the scenes.

Instead of knocking off production for the usual midday period, during which every one scrambled off after his own luncheon, Miss Talmadge with great forethought, had ordered a plentiful supply of luncheon for the entire company. When the morning's scene-shooting was at an end, the studio assistants surprised and delighted all hands by setting out hot dishes, sandwiches, coffee, and the inevitable pie in great profusion. Led to the attack by Miss Talmadge and her director, Sid Franklin, and her leading man, Eugene O'Brien, the whole troupe fell to with will, with the result that Hoover's ideal of the clean plate was lived up to the letter and spirit.

### "The Zerkosers."

The Cleveland Plain Dealer of Dec. 23rd said of "The Zerkosers":

"There was a quartet of musicians on at Keith's Hippodrome last week that were really good musicians. The quartet showed it had been trained by an artist whose ability as impresario did not dim his performing. His story at the piano at wherein he called upon the popular songs of the past was an unusually attractive hit."

This attraction will be heard at the Auditorium next Saturday and Sunday together with the Saturday feature, which is Norma Talmadge in a Select Photoplay.

### "The Triflers."

While playing the role of a motorcycle cop in the Universal photoplay, "The Triflers," David Butler played a good joke on two friends who were exceeding the speed limit on a Southern California highway. Recognizing the automobilists as they passed, he gave chase on his speedy cycle and overhauled the offenders, who expected a long delay as well as a fine. When they recognized their captor as Dave Butler they compromised by producing a bottle and drowning the incident in its liquid contents. "The Triflers," in which David Butler supports Edith Roberts, will be shown at the Auditorium theater next Sunday.

### "The Eyes of the World."

"Jim," the beautiful Black Horse in "The Eyes of the World," has a history. When you know something of "Jim's" record it doesn't surprise you that he fascinates the masses in "The Eyes of the World," the Clune cinema production of Harold Bell Wright's novel of adventure, to be shown at the Auditorium theater January 12 and 13. Jim is the cool black charger whose grace of lines and near-human intelligence make him one of the leading characters in the beautiful play.

As an Irish peasant would say, Jim is a "turbid knowledgeable" horse, and his actions in "The Eyes of the World" evoke many an "Oh" and "Ah" and "the dear."

In "The Eyes of the World" Jim is the horse that is ridden by the lawless, lawless ranger, Fred Burns, who played that character was one of the very few men to whom the owner would permit that privilege. Burns is a horseman's from crown to heel. He was for several years head of Wm. F. Cody (Buffalo Bill's) ranch in Wyoming, which raised horses for the latter's Wild West Show.

### ALHAMBRA.

Mary Burton had dared oppose her all-powerful brother, Hamilton Burton, known and feared throughout "The Street" as a financier of relentless purpose. She had defied him when he forbade her to marry Jefferson Edwards. And so Hamilton Burton had decreed Edward's ruin.

He had his way—as usual. But in bringing Edwards to ruin he brought ruin to himself. Mary, who had been his lover, and who had been his mistress, set out to kill the author of his misfortune.

Edwards sought to stay the maniac, and received in his own heart the bullet intended for Burton. Mary, who had been his lover, and who had been his mistress, set out to kill the author of his misfortune.

### GRAND.

The Willis Morley Musical comedy company has played immensely so far in its rendition of the famous old musical comedy "The Nabobs." Today the bill changes to "The Nabobs," another big musical comedy success of a century ago. The picture feature is "The Trail of the Octopus."

### GRAND.

The Broken Butterfly will be shown at the Grand for the last time. Miss Gail Henry appears in a good comedy, "Kids." Tomorrow commences a two days' engagement of a picture that has appeared in picture theaters all over the country. "The Perfect Lover" with Eugene O'Brien in the leading role.

Bobbie—You don't seem to think much of Bobbie. "Slobbe" "To tell the truth, the more I think of him the less I think of him."
